EDUCATION

Rajamangala University of Technology Thanyaburi

2022 - 2026

- Bachelor's Degree in Information and Digital Technology
- GPA : 3.16

SKILLS

- Languages : JavaScript , HTML5 , CSS , Dart , SQL , PHP
- Frontend : React.js , Tailwind CSS
- Backend : Node.js , Express.js
- Mobile: Flutter
- Databases : Microsoft SQL Server , MySQL , Firebase , Supabase
- Tools : Git , GitHub , Figma , Postman , Visual Studio Code

WORK EXPERIENCE

Software Developer Intern | Thai Bridgestone Nongkhae Plant

2025

- Developed 4 internal web applications (including Stock Control and IP Dashboard) to digitize manual workflows and improve operational speed.
- Implemented real-time databases, CRUD functionalities, and reporting tools for management auditing.
- **Tools:** React, Tailwind CSS, Node.js, Express.js, SQL Server

PROJECTS

KidGuard App (Senior Project)

2025 - 2026

- Developed a comprehensive parental control mobile application utilizing Flutter and Firebase to help parents monitor their children's digital habits and safety
- Implemented core functionalities including real-time location tracking, customizable screen time limits, and selective application blocking.
- Tools: Flutter, Dart, Firebase (Auth, Cloud Firestore), flutter_map, Provider, geolocator

Smart Dormitory Lighting Control System (IoT Project)

2025

- Built an automated, energy-efficient lighting system to reduce electricity waste in dormitories.
- Implemented 3 control modes: Scheduled (RTC Module), Auto (LDR sensor for ambient light), and Manual (Blynk Mobile App).
- **Tools:** NodeMCU ESP8266, LDR Sensor, Relay Module, RTC Module, Blynk App

Social Network Mobile App

2024

- Developed a mobile social media application focusing on real-time user interactions.
- **Tools:** Flutter, Firebase Realtime Database

Sports E-commerce Web App

2024

- Developed a responsive web application for selling sports equipment, with a focus on backend and database management.
- **Tools:** Node.js, Express.js, MySQL

E-commerce Website

2023

- Designed and developed a full-stack e-commerce website handling both frontend and backend systems.
- **Tools:** PHP, Bootstrap, MySQL
